### Accountability Pillar Results Report for 2018-2019

November 1, 2019

*WHERE THE WORLD OPENS UP*

The Accountability Pillar surveys are administered annually and throughout the province, during the months of January to March to:

- Students in Grades 4, 7 and 10;
- Students in Grades 4 through 9 (in small schools);
- Parents of students in Grades 4, 7 and 10; and
- Teachers.

Students and teachers complete the surveys online at school while parents receive a copy of the survey that can be completed online, or by mail. Parent surveys are returned directly to Alberta Education.

Responses are collected and tabulated into a summary chart released in May and are updated in October to supplement updated academic achievement results through the Provincial Achievement Tests (grade 6 and 9) and the Diploma Examination results (Divisional and First Nations, Métis and Inuit specific). These achievement reports are provided in a separate summary report on our school's website.

This Accountability Pillar Results Report includes our school's overall summary and new results for all survey measures.

#### **Approximate Survey Responses:**

- 21 parents in our school responded to the survey. This is down from 23 last year. Unfortunately, low survey responses may not accurately represent our parent population.
- In Parkland School Division, approximately 459 parents responded to the survey. The five-year average for parent responses is approximately 406.
- In Parkland School Division: 2,560 Students (960 in grades 4-6, 700 in 7-9 and 900 in 10-12) responded; this included 101 students who responded from our school.
- In Parkland School Division, 457 teachers responded; this included 19 teachers from our school.

These are approximate numbers as not every respondent answers every question.

#### **Highlights and Celebrations**

Blueberry School continues to celebrate the strong work of staff, students and our overall community.

- 93% of Blueberry School stake holders (teachers, parents and students) agree that students are safe at school, are learning the importance of caring for others, are learning respect for others and are treated fairly in the school.
- 93.6% of teachers parents and students are satisfied with Education Quality at Blueberry School. Levelled Literacy Intervention Programs and dedicated staff are contributing factors to these high results.

Parkland School Division's Ultimate Goal is Student Success and Well-Being. To this end, the Board's current Education Plan targets nine assurance elements in student growth, teaching and leading and learning supports.

There are still some areas for growth within our Accountability Pillar Survey results. Blueberry School is committed to improvement and continuing to learn and grow with our community. For our action items related to this report, please visit our school's Education Plan section of our website.

### **Areas Requiring Strategic Planning**

- 58.7% of Blueberry School parents, students and teachers are satisfied that students demonstrate the knowledge, skills and attitudes necessary for life long learning. For the last 5 years results on this question have averaged in the high 50's, These lower results may be related to parental dissatisfaction with Blueberry's choices of options. This is an area we will be exploring for the 2019 2020 school year.
- Blueberry School is below the province (-7%) and PSD (0.6%) in the area of Satisfaction with Program Access Measure History: Percentage of teacher, parent and student satisfaction with the accessibility, effectiveness and efficiency of programs and services for students in their community. These lower scores may reflect reduced frequency of services in the areas of social emotional, counselling, speech and language, occupational therapy, educational assistant and mental health supports at the school and RCSD levels. Tighter budgets make it challenging to provide these supports with the instructional budget and maintain lower class sizes.
