Adding Agenda Items - How Does It Work?

You are able to add items to the next months agenda during Council Meetings. This opportunity happens once the Agenda for the current meeting has been approved by Council. After additional agenda items are called for, no more requested items will be added to the next month's agenda. All additional items brought up during the meeting will carry forward (by two agendas).

You are also able to email the Blueberry School Council Chair with items you would like added to the agenda for discussion at Council Meetings. The date you email will determine which agenda your request will be placed on. The Chair will tell you which agenda your item has been placed on.
